[AE Update 02.05.14.xlsx](#)

Hello Michele and George,

This is the material that I'd like to update you with in our meeting tomorrow at 10:30 am. We have basically finished scoping wells in D1,D2,D3 and D5 outside of MOA productive limits. D6 does not have any AE issues while D4 is a slog because there are so many wells involved. The excel file attached includes only data from D1, D2, D3, and D5. I'll overnight some large maps for you. Thanks.

Jerry
